

For example, the *liver* and *kidney* are organs, and *liver* and *kidney* are parts of the *body*.

¹ See also the discussion of the relationship between the two in the section on "Theoretical Approaches" above.

For example, if \mathcal{L}_1 is a linear operator on $L^2(\Omega)$, then $\mathcal{L}_1 \otimes I$ is a linear operator on $L^2(\Omega) \otimes L^2(\Omega)$.

For more information about the study, please contact Dr. Michael J. Coughlin at (319) 356-4000 or via e-mail at mcoughlin@uiowa.edu.
